

REMARKS

The present amendments to the specification are simply correct typographical errors in the specification. New claims 44-47 are fully supported by the specification as originally filed. Claims 44-47 have been added. Claims 1-47 are now pending.

No new subject matter has been added to the specification or claims. The amendments have been made to clarify the specification and claims, and not for reasons of patentability. Therefore, the amendments are not intended to limit the scope of equivalents to which any claim element may be entitled.

The Applicant respectfully requests that the preliminary amendment described herein be entered into the record prior to examination and consideration of the above-identified application.

Respectfully submitted,

ROBERT A. BLANCHETTE ET AL.
